Description	Need Help	Making Progress	Got it!

Learning Goals	Date	Date	Date
I can describe examples of chemical and physical properties of elements.			
I can classify substances by their chemical properties.			
I can describe how elements are organized on the Periodic Table.			
I can compare and contrast atoms and molecules.			
I can use models to describe the structure of atoms and molecules.			
I can describe evidence of a chemical change by comparing the reactants and products in a chemical reaction.			
I can make observations and inferences.			
I can accurately use scientific tools and equipment.			
I can predict what would happen if the variable in an experiment changed.			
I can evaluate a scientific claim to determine if it is reasonable.
