Multicellular Organism Poster or Booklet Project

		3	2	1
Description of each organizational level (5 total)		All 5 descriptions are included and are defined correctly.	3-4 descriptions are included and are defined correctly.	Less than 3 descriptions are included.
Animal example included for each level (all levels MUST come from the previous level). 15 points total.	<u>Cell</u> /3 <u>Tissue</u> /3 <u>Organ</u> /3 <u>Organ System</u> /3 <u>Organism</u> /3	A labeled, hand-drawn, and colored picture for this level is included. The example is correct for the level that it represents.	A labeled, hand-drawn, OR colored picture for this level is included. The example is correct for the level that it represents.	A labeled, hand-drawn, and/or colored picture for this level is included. The example is incorrect for the level that it represents.
Function of each animal example included		All 5 examples have detailed descriptions of it's function.	3-4 examples have detailed descriptions of it's function.	Less than 3 examples have detailed descriptions of it's function.
Animal example included for each level (all levels MUST come from the previous level). 15 points total.	<u>Cell</u> /3 <u>Tissue</u> /3 <u>Organ</u> /3 <u>Organ System</u> /3 <u>Organism</u> /3	A labeled, hand-drawn, and colored picture for this level is included. The example is correct for the level that it represents.	A labeled OR colored picture for this level is included. The example is correct for the level that it represents.	A labeled and/or colored picture for this level is included. The example is incorrect for the level that it represents.
Function of each plant example included		All 5 examples have detailed descriptions of it's function.	3-4 examples have detailed descriptions of it's function.	Less than 3 examples have detailed descriptions of it's function.
Organization		Project is organized in a logical way that flows nicely for the viewer or reader to understand.	Some of the project is organized in a logical way that flows nicely for the viewer or reader to understand.	Very little to none of the project is organized. Difficult for the viewer or reader to understand.
Neatness		Color is used. Creativity and effort is present. Project is neatly put together.	2 of the following apply: Color is used. Creativity and effort is present. Project is neatly put together.	Less than 2 of the following apply: Color is used. Creativity and effort is present. Project is neatly put together.
Spelling, Punctuation and Grammar		No spelling, punctuation and/or grammar errors.	1-3 spelling, punctuation and/or grammar errors.	3 or more spelling, punctuation and/or grammar errors.
Cite Sources		All work that is someone else's ideas and words are cited.		

DUE DATE: _____

_____ / 42 = _____ %

Name: _____ Hour: _____ Date: _____

**NOTE: Function of each plant and animal example included.
-> Think about why this level is important to the organism that it is representing. How does it allow/help the organism to live and function properly?**
